

ANIMESH BHARDWAJ

Full-Stack Website Developer

☎ +91-9470754256 ✉ animeshbhardwajofficial@gmail.com 🔗 LinkedIn 🌐 GitHub

Professional Summary

Full-stack web developer experienced in **HTML, CSS, JavaScript, React, WordPress, Responsive Design, SEO, and Third-party API Integration**, delivering responsive websites, maintaining CMS solutions, optimizing performance, and collaborating across development teams using modern web technologies.

Technical Skills

Frontend: **HTML, CSS, JavaScript, React**, Tailwind CSS

CMS & Web: **WordPress**, Responsive Design, Cross-browser Compatibility, **SEO**, Third-party API Integration

Backend & Database: Node.js, Express.js, PostgreSQL, MongoDB, Prisma ORM

Tools: Git, GitHub, Postman, VS Code, REST APIs

Experience

Software Development Intern

June 2026 – Present

SingingBirds Startup (Remote)

- Developed responsive application features using **React, HTML, CSS**, and **JavaScript**, delivering **10+** frontend improvements while maintaining consistent cross-browser compatibility and reusable components.
- Built **REST APIs** with Node.js, Express.js, and PostgreSQL, integrating **15+** database operations to support scalable application features and reliable backend functionality.
- Customized content workflows, collaborated through Git pull requests, and resolved **20+** implementation issues while maintaining responsive layouts and project delivery timelines.
- Optimized application performance by debugging frontend and backend components, reducing rendering delays by **15%** while improving **Responsive Design** consistency across multiple browsers and devices.
- Implemented Claude-based automation using **Third-party API Integration** concepts, contributing **2** AI agent workflows while collaborating in Agile sprint planning and feature discussions.

Projects

Photography Portfolio Website [Live] | *WordPress, Elementor, Astra*

- Designed and deployed a responsive portfolio website using **WordPress, HTML**, and **CSS**, delivering **15+** professionally structured pages designed for desktop and mobile devices.
- Customized the Astra theme with **Elementor**, implementing **Responsive Design** and achieving consistent layouts across **5+** major browsers while maintaining pixel-perfect visual accuracy.
- Improved website performance through image compression, lazy loading, and clean page structures, reducing page load time by **30%** while enhancing overall user experience.
- Configured **SEO** fundamentals including metadata, clean URLs, image alt attributes, and structured content across **15+** pages, improving website discoverability and accessibility.
- Managed website deployment, plugin configuration, domain integration, and SSL setup, ensuring **100%** secure website availability with reliable functionality and ongoing maintenance support.

StudyZen Learning Platform [GitHub] | *React, Node.js, Express, PostgreSQL, Prisma*

- Developed a full-stack learning platform using **React, HTML, CSS**, and **JavaScript**, supporting **3** user roles with secure authentication and responsive user experiences.
- Built responsive dashboards and reusable components by implementing **Responsive Design**, improving navigation across **20+** application screens with consistent layouts and enhanced usability.
- Implemented **REST APIs** using Express.js and PostgreSQL, enabling **15+** backend endpoints for authentication, course management, and protected application workflows.
- Integrated efficient frontend architecture with **React**, reducing component duplication by **30%** while maintaining scalable code organization and improved application maintainability.
- Tested application functionality across **5+** browsers, fixing layout inconsistencies and improving responsive behavior through structured debugging and frontend optimization practices.

Education

B.Tech. Computer Science and Engineering

Graduated: 2026

DAV University, Jalandhar
